

European quality...
American ingenuity.

(800) 330-1175

www.matthewsbusescommercial.com

INDBUS was founded by members of the Queralt family from Arbucies, Spain, and the Castillo family from Skopje, Macedonia. Both families have a rich history in the bus industry, dating back to the year 1988.

In 2011, the Castillo family continued the venture on their own, with a mission to develop new vehicles focusing on quality, expertise and innovation, in the emerging manufacturing center of Macedonia.

INDBUS is a new brand, redesigned to capture a wide range of individual expectations and values after thorough research of the market.

So enjoy this revolutionary redesign and catch the spirit of European quality and American ingenuity. It has all the makings of a classic.

WHAT WE CAN OFFER...

VARIETY, because variety gives you options. Options to get exactly what you need. Each and every model is made to suit our customers' specific needs. From our many options, we create a customized solution that will provide your passengers with an outstanding travel experience.

INDBUS standard stock products

INDBUS has stock at any given time, meaning that we are able to adapt and fit our bodies to any chassis of your choice. We use steel or stainless steel structure and a body made of GRP (Glass Reinforced Plastic) and aluminum, which makes our buses strong, durable and light. We use high quality materials in every step of the production process.

NEW!

DRIVERS AID. Modern multifunction display with design philosophy that keeps operation simple and consistent by allowing you to select and display what you need on a single easy-to-interpret integrated screen.

Remarkable minibus design, with incredible luggage volume, not seen anywhere else.

DRIVERS AID. Modern multifunction display with design philosophy that keeps operation simple and consistent by allowing you to select and display what you need on a single easy-to interpret integrated screen.

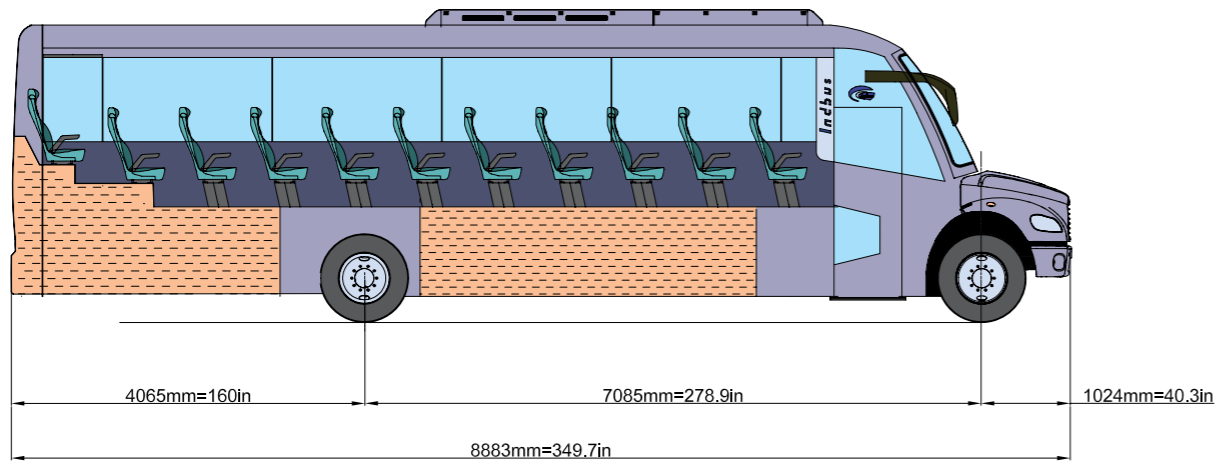

COMFORT. Our seats are ergonomically designed for their users for long and comfortable rides. The passenger area is equipped with a full climatization system, separated into two zones (upper and lower), with adjustable airflow vents and bright interior illumination.

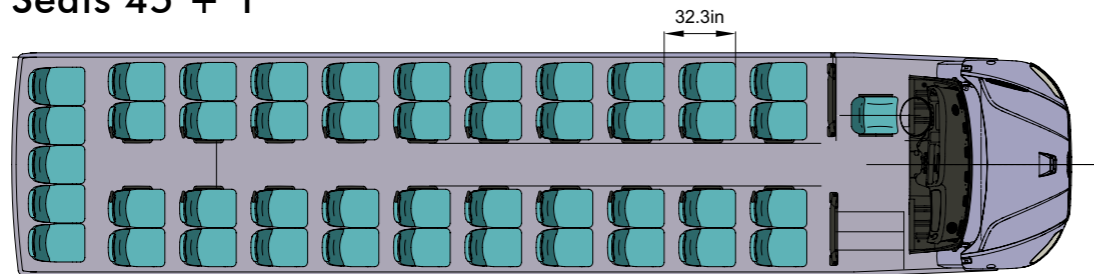

SAFE. Your safety is our highest priority. That is why we work hard to meet all required safety standards and stay up to date with new technology to give you a safe and reliable vehicle.
